PROFESSIONAL SUMMARY

Cum Laude BS Information Technology graduate with hands-on expertise in ethical hacking, penetration testing, vulnerability assessment, and secure software development. Regional Champion in DICT HackForGov 2 and rank 133 competitor in AJCCBC CTF Open ASEAN 2025. Cisco-certified security practitioner with 60+ TryHackMe cybersecurity labs completed. Proven experience leading secure mobile development for military operations. Seeking entry-level roles in Cybersecurity Analysis, Penetration Testing, or SOC Operations.

CORE COMPETENCIES

Cybersecurity & Defense:	Penetration Testing, Vulnerability Assessment, Active Directory Enumeration, Incident Response, Digital Forensics, Privilege Escalation
Development & Cloud:	Java, JavaScript, C#, HTML5/CSS3, SQL, Flutter, Android Studio, Supabase, Git/GitHub, Database Design
Certifications (Cisco):	Ethical Hacker (2026), Endpoint Security (2026), Cyber Threat Management (2026), Intro to Cybersecurity (2024)

CYBERSECURITY LABS & HANDS-ON TRAINING

TryHackMe — 60+ Hands-On Cybersecurity Labs & Machine Challenges

- Offensive & Pentesting Labs: Successfully exploited & rooted machines including Blue, Vulniversity, Kenobi, Attacktive Directory, Mr Robot CTF, RootMe, Startup, Bounty Hacker, Cyborg, Overpass, and Pickle Rick.
- Core Skill Domains: Hands-on execution of Active Directory exploitation, Linux/Windows privilege escalation, SQL injection, web app attacks (Burp Suite, Nmap, Nessus), network forensics, OSINT, and red team methodologies.

WORK & PRACTICAL EXPERIENCE

Armed Forces of the Philippines (AFP) Feb - May 2026 — IT Support Intern / System Development Trainee (486 Hours)

- Served as Lead Developer for a confidential mobile logistic tracking app used in military support operations.
- Engineered real-time vehicle/supply tracking features using GPS and interactive mapping technologies.
- Enforced strict data protection protocols for operational records; remediated system vulnerabilities to minimize downtime.

City Health Office 2019-2019 — Computer Maintenance & Data Management Intern

- Managed confidential patient health records ensuring 100% Data Privacy compliance and maintained local IT infrastructure.

KEY ACHIEVEMENTS & COMPETITIONS

- Champion & Highest Individual Scorer** | DICT HackForGov 2 (MIMAROPA Region), 2023: Outperformed regional competitors in CTF challenges; served as Team Leader and Regional Representative.
- Rank 133 Competitor** | AJCCBC CTF Open ASEAN, 2025: Competed in Individual Jeopardy-style CTF covering web exploitation, reverse engineering, binary exploitation, and digital forensics.
- Multi-Year Champion** | Codefest 'Tagisan ng Talino' Programming Competition, 2022 – 2023: 1st Place (2022) & 2nd Place (2023) STI ORCA Manila Cluster; 2-time Local Champion in Java, SQL, and Mobile Dev.

EDUCATION

Bachelor of Science in Information Technology (Graduated Cum Laude, CGWA: 1.31) — STI College Puerto Princesa (2022 – 2026)

Major Focus: Cybersecurity, Secure Software Development, Systems Administration
